

Dear Parents & Students,

Please take a moment to look over our calendar of events, full of wonderful upcoming activities just for you! At the College Directions Program (CDP), we are working hard to continue providing students like you with valuable experiences as you explore your college options. I encourage you to take full advantage of the exciting and free opportunities detailed within.

As seniors work to complete their application process and juniors focus their attention toward building their strengths, narrowing their options, and preparing for exams, remember that we are here to help students get through the entire process. As always, we offer the unique service of individual counseling sessions to address any and all of your college counseling needs.

So don't waste any time! Pick up the phone and call us. We look forward to hearing from you.

Sincerely,

Allison Torres, MPA
